

Attention Residents: Burlington County Aggregation Program

Information. Cinnaminson Township was notified by TriEagle Energy that they have terminated their agreement with the Burlington County Energy Aggregation Program due to recent changes in the energy market. TriEagle has communicated that they can no longer provide energy rates through the current program which are lower than the default rate offered on the Basic Generation Service (BGS) provided by PSE&G. Therefore, residents currently participating in the aggregation program soon will be returned to the Basic Generation Service (BGS). TriEagle Energy will be providing current participants with a detailed notice and PSE&G will notify program participants of the date that the BGS default rate will take effect. For additional information, residents can visit www.njaggregation.us/Burlington or contact (855) 200-2648.
